

WHEN YOU SPEND A LOT OF TIME IN YOUR HOME, YOU WANT TO KNOW THE AIR YOU BREATHE IS CLEAN.

At Carrier, we developed our Infinity® air purifiers with patented Captures & Kills® technology that helps inactivate select airborne pathogens, including coronavirus*, to prevent them from recirculating through your home's air. So you can find comfort and peace of mind – even without a meditation cushion.

Learn how it works at [carrier.com/purifier](https://www.carrier.com/purifier).

*The Infinity Air Purifier has demonstrated effectiveness against the murine coronavirus, based on third-party testing (2020) showing a >99% inactivation, which is a virus similar to the human novel coronavirus (SARS-CoV-2) that causes COVID-19. Therefore, the Infinity Air Purifier can be expected to be effective against SARS-CoV-2 when used in accordance with its directions for use. Airborne particles must flow through your HVAC system and be trapped by the Infinity filter to be inactivated at 99%.
